

Whatever your application—telephone, datacomm, coax, fiber optic or industrial, we offer a tool kit with the right combination of tools, die sets and connectors. Paladin Tools' kits offer many advantages:

- All the necessary tools in one place for the same application
- High-density lining and case protects tools
- Shaped foam lining makes it obvious if a tool is misplaced
- Fabric zipper cases are easy to carry and convenient to use
- Kits contain tools selected to work precisely together

For those applications that you are working on every day, we have a kit just right for you. If you want to create your own kit, select the case style that's most convenient and then pick out the tools that you use. We can even customize a kit for your specific needs.

Professional UTP Termination Kit

Professional UTP (unshielded) termination kit for assembly and testing of telephone, data and network cabling systems. Kit includes:

- stripax® Pro 6 wire cutter/stripper (P/N 1113)
- FlatCat™ cable cutter/stripper (P/N 1160)
- 1300 crimper frame (P/N 1302)
- Die sets: RJ45 WE/SS (P/N 2061) and RJ11 WE/SS (P/N 2062)
- Patch-Check® cable tester (P/N 1529)
- Connectors: RJ11 (qty. 30) (P/N 9520), RJ45 (qty. 15) (P/N 9521) and RJ45 solid wire (qty. 15) (P/N 9543)
- Crimp tool features interchangeable die system
- One-year warranty on kit; individual warranties apply to each tool

LAN ProNavigator™ Test Set

New

If you're a technician on the go, you need the LAN ProNavigator™ from Paladin Tools!

Two-piece tester includes main unit and remote with test results at both ends.

Features:

- One-button, simple testing (PASS/FAIL or fault find)
- Traces wires with tone & remote lights
- Quick fault analysis on coax & data cables
- CAT-5, CAT-5e or CAT-6 (UTP/STP) cable testing
- Detects Opens, Shorts, Crossed Wires & Split Pairs
- Compact & lightweight, comfortable to hold
- Designed & manufactured in the USA
- Test status lights at both ends (main unit & remote)
- One-year warranty

Specifications:

- Simple PASS/FAIL test results in one second allows technicians to quickly move on to the next test site.
- Generates oscillating audio tone for use with tone probes to locate cables.
- Tests data and telephone cables up to 320 feet (100 meters) for proper pairing for EIA/TIA-568A, EIA/TIA-568B, Token Ring, 10 Base T, and common Category 5 configurations.
- Tests unshielded UTP and shielded STP data cable.
- Detects good connections, open connections, crossed wires and split pairs.
- Tests common BNC connected 50 and 75 ohm coaxial cables up to 320 feet (100 meters) for continuity.
- Tests coaxial cable types RG58, RG59, RG6, RG6 Quad, Belden 8281, RG8, RG11 and more.
- Shows test results at both ends of cable.
- Belt clips provided and lanyard holes embedded in case to attach to belt or wrist.
- Uses standard 9-volt dc battery with auto-off function to preserve battery life.
